

1943

THE WINNERS IN THE SECOND
ANNUAL SCIENCE TALENT SEARCH

SCIENCE CLUBS OF AMERICA

1719 N STREET NW · WASHINGTON DC

DEDICATED TO THE DEVELOPMENT OF SCIENCE TALENT
ADMINISTERED BY SCIENCE SERVICE, the Institution for
the Popularization of Science. WATSON DAVIS, DIRECTOR

THE SECOND ANNUAL SCIENCE TALENT SEARCH

Three hundred boys and girls, who are believed to have unusual potential scientific ability, have been selected from the 1943 senior classes of United States secondary schools and have been awarded honors in the Second Annual Science Talent Search.

Designed to discover and develop scientific ability among high school seniors, the Science Talent Search is conducted annually for the Westinghouse Science Scholarships by Science Clubs of America, administered by Science Service, 1719 N Street, N.W., Washington, D.C.

SECOND ANNUAL SCIENCE TALENT SEARCH WASHINGTON TRIP WINNERS

Eleven girls and 29 boys (proportion determined by ratio of boys and girls entering the contest) are being invited to Washington, D.C., for an all-expense trip February 26 to March 2, 1943, to attend the Science Talent Institute. Here one boy and one girl will be awarded \$2,400 Westinghouse Grand Science Scholarships. Six boys and two girls will be awarded \$400 Westinghouse Science Scholarships and \$3,000 additional in scholarships will be awarded.

The trip winners are 15 to 17 years of age and come from 37 localities in 16 states. They were picked by the judges from among 15,000 contestants of whom over 3,400 completed their entries by taking a science aptitude examination, obtaining recommendations and writing an essay on "Science's Next Great Step Ahead". Entries were received from every state.

More than half, 65%, of the Second Annual Science Talent Search winners ranked first in their graduating classes. Twenty-four of the winners were members of science clubs and four of them were club presidents.

Girls accounted for 26% of the entries this year, in comparison to 22% last year.

* Indicates girls.

SECOND ANNUAL SCIENCE TALENT SEARCH HONORABLE MENTIONS

In addition to the 40 chosen to come to Washington, 260 students have such promise that the judges recommended that they be awarded Honorable Mentions in the Second Annual Science Talent Search and their ranking be brought to public attention and, particularly, that colleges and universities be informed.

Each boy and girl awarded Honorable Mention, as well as the Washington trip winners of the Second Annual Science Talent Search, are considered so outstanding that any institution of higher learning would be justified in considering their abilities carefully.

Dr. Harold A. Edgerton, who developed and carried out the selection technique, declares that "all of the Honorable Mentions, as well as the trip winners, represent a group of high school seniors of outstanding ability whose high school records indicate that they are top-notch producers, and whose activities and interests reflect an active interest in some field of science".

Of the Honorable Mentions in the Second Annual Science Talent Search over 95% of the boys and 92% of the girls were in the top 5% of their high school classes. Thirty-four per cent. of the boys and 30% of the girls have had at least four years of high school science. Seventy-nine per cent. of the boys and 74% of the girls have studied science for 3 years or more in high school. All have participated in a wide variety of extracurricular activities and hobbies.

Among the 73 girls who won Honorable Mention 33 belong to science clubs and 10 of these are presidents or hold other offices in their clubs. One hundred five boys of the 187 who won Honorable Mention belong to science clubs and of this number 30 are their club presidents or hold other elective offices in their clubs.

The proportion of boys and girls in this list is determined by the ratio of boys and girls entering the contest.

* Indicates girls.

SPONSORSHIP OF THE SCIENCE TALENT SEARCH

The Science Talent Search is conducted by Science Clubs of America, 1719 N St., N.W., Washington, D.C., one of the activities of Science Service.

Awards are provided and the Science Talent Search made financially possible by the Westinghouse Electric & Manufacturing Company, a leader in scientific research, engineering and manufacture in the electrical industry, as a contribution to the advancement of science in America.

Science Clubs of America, administered by Science Service, is the nation-wide organization binding together science groups, in schools and out. Science Service is the non-profit institution for the popularization of science, with trustees nominated by the National Academy of Sciences, National Research Council and the American Association for the Advancement of Science, the E. W. Scripps Estate and the journalistic profession.
