

Rules and Regulations

THE FOURTH ANNUAL SCIENCE TALENT SEARCH CONDUCTED BY
SCIENCE CLUBS OF AMERICA, FOR THE
WESTINGHOUSE SCIENCE SCHOLARSHIPS

ELIGIBILITY

Any boy or girl who is in his last year in a secondary school (public, private, parochial) in continental United States who is expected by the certifying school official to complete college entrance qualifications before October 1, 1945, and who has not competed in any previous Science Talent Search is eligible to enter this competition.

Age—There are no age limits in this competition.

Science Clubs of America—It is not necessary to be a member of Science Clubs of America to enter this competition, although creative activity in a Science Club will aid a contestant's record.

REQUIREMENTS

1. Each contestant must take the Science Talent Search examination administered in his school on or after Friday, December 1, 1944.

2. Each contestant must submit an essay.

3. Certifying teachers must fill out in each examination blank a scholarship record and personal record.

4. All entries must reach the offices of Science Clubs of America, 1719 N Street, N. W., Washington 6, D. C., not later than midnight Wednesday, December 27, 1944.

Science Talent Search examination and personal record blanks are furnished free of charge to any school official requesting them.

The essay shall be about 1,000 words in length on the subject: "MY SCIENTIFIC PROJECT." It should tell what the contestant is doing or plans to do in science in the way of experimentation or other research activity. It should be original, creative and interpretative in character.

AWARDS

Forty contestants with highest talent as judged by a judging committee on the basis of Science Talent Search examination, scholastic and personal records, essays and any other information assembled by the judges, will be awarded invitations to the Science Talent Institute and all-expense trips (transportation, hotel and other arranged expenses paid) to the place the Institute is to be held, and return. It is planned to hold the Science Talent Institute at the beginning of March, 1945, at Washington, D. C., unless in the judgment of Science Service it should be held elsewhere or at another time. All contestants invited to the Science Talent Institute will receive the Gold Emblem of Science Clubs of America.

Two contestants, one boy and one girl, coming to the Science Talent Institute will be selected by a board of judges, to receive four-year scholarships of \$2,400 each (\$600 per year). Alternates will be named.

Eight additional contestants coming to the Science Talent Institute will be selected by a board of judges to receive four-year scholarships of \$400 each (\$100 per year). Three alternates will be named.

Additional scholarship awards totaling \$3,000 will be awarded at the discretion of the judges.

Honorable mentions will be awarded.

Committees of judges designated by Science Service will judge the contest, and the decision of these judges shall be final in all cases.

Conditions of Scholarships

Each scholarship may be applied toward a course in science or engineering at a degree-granting institution of high-

er education selected by the winner and approved by a Scholarship Committee named by Science Service. Science and engineering courses that may be pursued are those encompassed in the fields of activity of the National Academy of Sciences and the National Research Council.

Should any winner be unable for any reason to enter upon the use of a scholarship, the highest ranking alternate named by the judges shall become entitled to receive it under the same conditions as applicable to the original winner and the original winner shall thereupon have no further rights in the scholarship.

The use of a scholarship shall begin within a year of the date of award.

One-half of each year's scholarship will be paid at the time of entering upon each year's college work and one-half at the middle of each collegiate year, but payments may be accelerated at the discretion of the Scholarship Committee.

If a winner is prevented from using his or her scholarship award because of entry into governmental war service, the award will be held in abeyance and be made available to him or her upon his or her return to collegiate work, provided that return occurs within one year after his or her release from governmental war service. In the event that the holder withdraws from collegiate work for any other reason, or if continued use of the scholarship award is disapproved by the Scholarship Committee upon report from the college that progress is deemed unsatisfactory to the college, the right of the scholarship holder to receive any further payments shall be forthwith terminated.

The approval or disapproval and decision of the Scholarship Committee shall in all its respects be final.

THE WINNERS IN THE FOURTH ANNUAL SCIENCE TALENT SEARCH

SCIENCE CLUBS OF AMERICA

1719 N STREET NW · WASHINGTON 6 DC

DEDICATED TO THE DEVELOPMENT OF SCIENCE TALENT
ADMINISTERED BY SCIENCE SERVICE, the Institution for
the Popularization of Science. WATSON DAVIS, DIRECTOR

The best way to keep informed on the Science Talent Search

is to belong to SCIENCE CLUBS OF AMERICA, 1719 N Street, N. W., Washington 6, D. C.

THE FOURTH ANNUAL SCIENCE TALENT SEARCH

Three hundred boys and girls, who are believed to have unusual potential scientific ability, have been selected from the 1945 senior classes of United States secondary schools and have been awarded honors in the Fourth Annual Science Talent Search.

Designed to discover and develop scientific ability among high school seniors, the Science Talent Search is conducted annually for the Westinghouse Science Scholarships by Science Clubs of America, administered by Science Service, 1719 N Street, N.W., Washington 6, D.C.

FOURTH ANNUAL SCIENCE TALENT SEARCH WASHINGTON TRIP WINNERS

Eleven girls and 29 boys (proportion determined by ratio of boys and girls entering the contest) are being invited to Washington, D.C., for an all-expense trip March 2 to March 6, 1945, to attend the Science Talent Institute. Here one boy and one girl will be awarded \$2,400 Westinghouse Grand Science Scholarships. Eight winners will be awarded \$400 Westinghouse Science Scholarships and \$3,000 additional in scholarships will be awarded.

The trip winners are 15 to 17 years of age and come from 34 localities in 15 states. They were picked by the judges from among 15,000 contestants of whom about 3,000 completed their entries by taking a science aptitude examination, obtaining recommendations and writing an essay on "My Scientific Project." Entries were received from every state.

About three fifths, 58%, or 23 of the 40 Fourth Annual Science Talent Search winners ranked first or second in their graduating classes. The winners were members of a total of 61 science clubs and at least 16 of them were club presidents or other officers.

Girls accounted for 28% of the entries this year, in comparison to 31% last year.

FOURTH ANNUAL SCIENCE TALENT SEARCH HONORABLE MENTIONS

In addition to the 40 chosen to come to Washington, 260 students have such promise that the judges recommended that they be awarded Honorable Mentions in the Fourth Annual Science Talent Search and their ranking be brought to public attention and, particularly, that colleges and universities be informed.

Each boy and girl awarded Honorable Mention, as well as the Washington trip winners of the Fourth Annual Science Talent Search, are considered so outstanding that any institution of higher learning would be justified in considering their abilities carefully.

Dr. Harold A. Edgerton, who, with Dr. Stewart H. Britt, developed and carried out the selection technique, declares that "all of the Honorable Mentions, as well as the trip winners, represent a group of high school seniors of outstanding ability whose high school records indicate that they are top-notch producers, and whose activities and interests reflect an active interest in some field of science."

Of the Honorable Mentions in the Fourth Annual Science Talent Search 52% of the boys and 62% of the girls were first or second in their high school

classes. Forty-five per cent of the boys and 50% of the girls have had at least four years of high school science. Eighty-two per cent of the boys and 84% of the girls have studied science for three years or more in high school. All have participated in a wide variety of extracurricular activities and hobbies.

Among the 74 girls who won Honorable Mention 37 belong to science clubs and 8 of these are presidents or hold other offices in their clubs. One hundred twenty-two boys of the 186 who won Honorable Mention belong to science clubs and of this number 39 are their club presidents or hold other elective offices in their clubs.

The proportion of boys and girls in this list is determined by the ratio of boys and girls entering the contest.

* Indicates girls.

SPONSORSHIP OF THE SCIENCE TALENT SEARCH

The Science Talent Search is conducted by Science Clubs of America, 1719 N St., N.W., Washington 6, D.C., one of the activities of Science Service.

Awards are provided and the Science Talent Search made financially possible by the Westinghouse Electric & Manufacturing Company, a leader in scientific research, engineering and manufacture in the electrical industry, as a contribution to the advancement of science in America.

Science Clubs of America, administered by Science Service, is the nation-wide organization binding together science groups, in schools and out. Science Service is the non-profit institution for the popularization of science, with trustees nominated by the National Academy of Sciences, National Research Council, the American Association for the Advancement of Science, The E. W. Scripps Estate and the journalistic profession.
