THE WINNERS IN THE FIFTH
ANNUAL SCIENCE TALENT SEARCH

SCIENCE CLUBS OF AMERICA

1719 N STREET NW • WASHINGTON 6 DC

DEDICATED TO THE DEVELOPMENT OF SCIENCE TALENT
ADMINISTERED BY SCIENCE SERVICE AND ADMINISTRATION FOR
THE POPULATION OF SCIENCE. WATSON DAVIS, DIRECTOR

THE ANNUAL SCIENCE TALENT SEARCH

Never before has the world had greater need of the investigative turn of mind, the inquiring attitude and the love of fact that is exemplified in scientific research. Little by little, as wartime secrets are made known, we are learning of the service of science in winning the war and preserving our way of life.

A peaceful and effective united world can not be achieved without even greater abilities, energies and resources being devoted to the constructive problems of the postwar world.

The Science Talent Search has succeeded far beyond our hopes. To the top 300 contestants in each of the first four years there have come many thousands of dollars in scholarships from colleges and universities throughout the nation, supplementing the Westinghouse scholarships distributed among those who were invited and came to Washington.

With approval from the educational world and with the winners of the first four Science Talent Searches making creditable records in college or the fighting forces, this attempt at picking those with research ability in science has become an institution and a tradition. Those selected in such vigorous competition have a great responsibility.

In a real sense the annual Science Talent Search is more than a scholarship contest. It is a major step toward making scientific talent available to important tasks in peace and war.

The participation of Westinghouse Electric Corporation, as a great industrial organization, in the financing of the annual Science Talent Search is a notable contribution to the advancement of science in America. This activity can be considered a support of "pure research" of importance equal to the fundamental researches in the Westinghouse research laboratories. Science and education are grateful to the Westinghouse Electric Corporation for its support of the first five Science Talent Searches.

Science Service, engaged in the interpretation and popularization of science on a broad front, is proud of administering, through Science Clubs of America, the annual Science Talent Search. From the newspapers, educators, and scientists of America there has been enthusiastic cooperation in this annual activity that means so much to high school seniors interested in science. The Science Talent Search is a continuing opportunity and responsibility of the more than 9,000 science clubs and more than 200,000 members affiliated with Science Clubs of America.

THE FIFTH ANNUAL SCIENCE TALENT SEARCH

Three hundred boys and girls, who are believed to have unusual potential scientific ability, have been selected from the 1946 senior classes of United States secondary schools and have been awarded honors in the Fifth Annual Science Talent Search.

Designed to discover and develop scientific ability among high school seniors, the Science Talent Search is conducted annually for the Westinghouse Science Scholarships by Science Clubs of America, administered by Science Service, 1719 N St., N.W., Washington 6, D.C.

FIFTH ANNUAL SCIENCE TALENT SEARCH WASHINGTON TRIP WINNERS

Eleven girls and 29 boys (proportion determined by ratio of boys and girls entering the contest) are being invited to Washington, D.C., for an all-expense trip March 1 to March 5, 1946, to attend the Science Talent Institute. Here one boy and one girl will be awarded \$2,400 Westinghouse Grand Science Scholarships. Eight winners will be awarded \$400 Westinghouse Science Scholarships and \$3,000 additional in scholarships will be awarded.

The trip winners are 15 to 18 years of age and come from 34 localities in 15 states and the District of Columbia. They were picked by the judges from among 16,000 contestants of whom about 3,000 completed their entries by taking a science aptitude examination, obtaining recommendations and writing an essay on "My Scientific Project." Entries were received from every state.

About 67% of the 40 Fifth Annual Science Talent Search winners ranked first or second in their graduating classes. The winners were members of a total of 50 science clubs and at least 10 of them were club presidents or other officers. Thirty-one are members of clubs affiliated with Science Clubs of America.

Girls accounted for 26.5% of the entries this year, in comparison to 28% last year.

* Indicates girls.

FIFTH ANNUAL SCIENCE TALENT SEARCH HONORABLE MENTIONS

In addition to the 40 chosen to come to Washington, 260 students have such promise that the judges recommended that they be awarded Honorable Mentions in the Fifth Annual Science Talent Search and their ranking be brought to public attention and, particularly, that colleges and universities be informed.

Each boy and girl awarded Honorable Mention, as well as the Washington trip winners of the Fifth Annual Science Talent Search, are considered so outstanding that any institution of higher learning would be justified in considering their abilities carefully.

Dr. Harold A. Edgerton, who, with Dr. Stuart H. Britt, developed and carried out the selection technique, declares that "all of the Honorable Mentions, as well as the trip winners, represent a group of high school seniors of outstanding ability whose high school records indicate that they are top-notch producers, and whose activities and interests reflect an active interest in some field of science."

Of the Honorable Mentions in the Fifth Annual Science Talent Search 50% of the boys and 45% of the girls were first or second in their high school classes. Forty per cent of the boys and 28% of the girls have had at least

four years of high school science. Forty-one per cent of the boys and 41% of the girls have studied science for three years or more in high school. All have participated in a wide variety of extracurricular activities and hobbies.

Among the 260 who won Honorable Mention 156 belong to science clubs and 53 of these are presidents or hold other offices in their clubs.

The proportion of boys and girls in this list is determined by the ratio of boys and girls entering the contest. Listed are 68 girls, 192 boys.

* Indicates girls.
