SIXTH ANNUAL SCIENCE TALENT SEARCH HONORABLE MENTIONS

In addition to the 40 chosen to come to Washington, 260 students have such promise that the judges recommended that they be awarded Honorable Mentions in the Sixth Annual Science Talent Search and their ranking be brought to public attention and, particularly, that colleges and universities be informed.

Each boy and girl awarded Honorable Mention, as well as the Washington trip winners of the Sixth Annual Science Talent Search, are considered so outstanding that any institution of higher learning would be justified in considering their abilities carefully.

Dr. Harold A. Edgerton, who, with Dr. Steuart H. Britt, developed and carried out the selection technique, declares that "all of the Honorable Mentions as well as the trip winners, represent a group of high school seniors of outstanding ability whose high school records indicate that they are top-notch producers, and whose activities and interests reflect an active interest in some field of science."

Of the Honorable Mentions in the Sixth Annual Science Talent Search 37% of the boys and 54% of the girls were first or second in their high school classes. Forty-nine per cent of the boys and 44% of the girls have had at least four years of high school science. Ninety per cent of the boys and 76% of the girls have studied science for three years or more in high school. All have participated in a wide variety of extracurricular activities and hobbies.

Among the 260 who won Honorable Mention 193 belong to science clubs.

The proportion of boys and girls in this list is determined by the ratio of boys and girls entering the contest. Listed are 59 girls, 201 boys.

* Indicates girls H.S. Indicates High School
