

# Rules and Regulations

THE THIRTEENTH ANNUAL SCIENCE TALENT SEARCH CONDUCTED BY  
SCIENCE CLUBS OF AMERICA, FOR THE WESTINGHOUSE SCIENCE SCHOLARSHIPS

## ELIGIBILITY

Any boy or girl who is in his last year in an accredited secondary school (public, private, parochial) in continental United States, who is expected by the certifying school official to complete college entrance qualifications before October 1, 1954, and who has not competed in any previous Science Talent Search is eligible to enter this competition.

*Age*—There are no age limits in this competition.

*Science Clubs of America*—It is not necessary to be a member of Science Clubs of America to enter this competition, although creative activity in a science club will aid a contestant's record.

## REQUIREMENTS

Each completed entry in the Science Talent Search must consist of these three:

1. A completed science aptitude examination, certified by student and teacher.
2. A personal data blank and secondary school record, filled out by the teachers and principal.
3. A report of about 1,000 words on "My Scientific Project," by the student. It should tell what the contestant is doing or plans to do in science in the way of experimentation or other research activity. It should be original, creative and interpretative in character.

Science Talent Search science aptitude examinations and personal data—secondary school record blanks are furnished free of charge to any school official who requests them and who pledges to administer them in accordance with instructions.

Each contestant must take the Science Talent Search examination administered in his school on or after Monday, December 7, 1953.

All entries must reach the offices of Science Clubs of America, 1719 N Street, N. W., Washington 6, D. C., not later than midnight, Sunday, December 27, 1953.

## AWARDS

Forty contestants with highest talent as judged by a judging committee on the basis of Science Talent Search examination, scholastic and personal records, reports and any other information assembled by the judges, will be awarded invitations to the Science Talent Institute and all-expense trips (transportation, hotel and other arranged expenses paid) to the place the Institute is to be held, and return. It is planned to hold the Science Talent Institute February 25-March 1, 1954, at Washington, D. C., unless in the judgment of Science Service it should be held elsewhere or at another time. All contestants invited to the Science Talent Institute will receive the Gold Emblem of Science Clubs of America.

One contestant coming to the Science Talent Institute will be selected by a board of judges to receive a four-year Westinghouse Grand Science Scholarship of \$2,800 (\$700 per year). An alternate will be named.

Another contestant coming to the Science Talent Institute will be selected by a board of judges to receive a four-year Westinghouse Grand Science Scholarship of \$2,000 (\$500 per year). An alternate will be named.

Eight additional contestants coming to the Science Talent Institute will be selected by a board of judges to receive four-year Westinghouse Scholarships of \$400 each (\$100 per year). Three alternates will be named.

Additional Westinghouse Scholarship awards totaling \$3,000 will be awarded at the discretion of the judges.

Honorable mentions will be awarded.

Committees of judges designated by Science Service will judge the contest, and the decision of these judges shall be final in all cases.

## Conditions of Scholarships

Each scholarship may be applied toward a course in science or engineering at a degree-granting institution of higher education selected by the winner and approved by a Scholarship Committee named by Science Service. Science and engineering courses that may be pursued are those encompassed in the fields of activity of the National Academy of Sciences and the National Research Council.

Should any winner be unable for any reason to enter upon the use of a scholarship, the highest ranking alternate named by the judges shall become entitled to receive it under the same conditions as applicable to the original winner and the original winner shall thereupon have no further rights in the scholarship.

The use of a scholarship shall begin within a year of the date of award.

One-half of each year's scholarship will be paid at the time of entering upon each year's college work and one-half at the middle of each collegiate year, but payments may be accelerated at the discretion of the Scholarship Committee.

In the event that the holder withdraws from collegiate work, or if continued use of the scholarship award is disapproved by the Scholarship Committee upon report from the college that progress is deemed unsatisfactory to the college, the right of the scholarship holder to receive any further payments shall be forthwith terminated.

The approval or disapproval and decision of the Scholarship Committee shall in all its respects be final.

## THE ANNUAL SCIENCE TALENT SEARCH

Never before has the world had greater need of the investigative turn of mind, the inquiring attitude and the love of fact that is exemplified in scientific research.

Science is important in defense of our freedom and the preservation of our way of life.

The Science Talent Search has succeeded far beyond our hopes. To the top 3600 contestants in the first twelve years have come many millions of dollars in scholarships from colleges and universities throughout the nation, supplementing the Westinghouse Science Scholarships distributed among those who were invited and came to Washington.

With approval from the educational world and with the winners of the first twelve Science Talent Searches making creditable records in colleges, universities and professional positions, this attempt at picking those with research ability in science has become an institution and a tradition. Those selected in such rigorous competition have a great responsibility.

In a real sense the annual Science Talent Search is more than a scholarship contest. It is a major step toward making scientific talent available for important tasks in our civilization.

The participation of a great industrial organization in the financing of the annual Science Talent Search is a notable contribution to the advancement of science in America. This activity can be considered a support of "pure research" of importance equal to the fundamental researches in the Westinghouse Research Laboratories. Science and education are grateful for the financial support of the first thirteen Science Talent Searches by the Westinghouse Educational Foundation, an organization endowed by the Westinghouse Electric Corporation for the promotion of education and science.

Science Service, engaged in the interpretation and popularization of science on a broad front, is proud of administering, through Science Clubs of America, the annual Science Talent Search. From the newspapers, educators and scientists of America there has been enthusiastic cooperation in this annual activity that means so much to high school seniors interested in science. The Science Talent Search is a continuing opportunity and responsibility of the more than 15,000 science clubs and one-third of a million members affiliated with Science Clubs of America.

## THE THIRTEENTH ANNUAL SCIENCE TALENT SEARCH WASHINGTON TRIP WINNERS

Three hundred boys and girls, who are believed to have unusual potential scientific ability, have been selected from the 1954 senior classes of the United States secondary schools and have been awarded honors in the Thirteenth Annual Science Talent Search.

Eight girls and 32 boys (proportion determined by ratio of boys and girls entering the contest) are being invited to Washington, D.C., for an all-expense trip February 25 through March 1, 1954, to attend the Science Talent Institute. Here one boy or girl will be awarded the \$2,800 Westinghouse Grand Science Scholarship. Other scholarships, bringing the total to \$11,000, will range from \$100 to \$2,000. They will be awarded at the discretion of the judges.

The trip winners are 15 to 17 years of age and come from 32 cities in 18 states and the District of Columbia. They were picked by the judges from among 16,344 contestants of whom 2,409 completed their entries by taking a science aptitude examination, obtaining recommendations and writing a report on "My Scientific Project". Entries were received from every state.

About 58% of the 40 Thirteenth Annual Science Talent Search winners ranked first, second, or third in their graduating classes. Most of the winners are members of science clubs and many of them are club presidents, or other officers. Most of their clubs are affiliated with Science Clubs of America.

Girls accounted for 20% of the entries this year.

### THIRTEENTH ANNUAL SCIENCE TALENT SEARCH HONORABLE MENTIONS

In addition to the 40 chosen to come to Washington, 260 students have such promise that the judges recommended that they be awarded Honorable Mention in the Thirteenth Annual Science Talent Search and their ranking be brought to public attention and, particularly, that colleges and universities be informed.

All boys and girls awarded Honorable Mention, as well as the Washington trip winners of the Thirteenth Annual Science Talent Search, are considered so outstanding that any institution of higher learning would be justified in considering their abilities carefully.

Dr. Harold A. Edgerton, who, with Dr. Stewart H. Britt, developed and carried out the selection technique, declares that "all of the Honorable Mentions as well as the trip winners, represent a group of high school seniors of outstanding ability whose high school records indicate that they are top-notch producers. Their activities and interests reflect an active interest in some field of science."

Of the Honorable Mentions in the Thirteenth Annual Science Talent Search, 28% of the boys and 48% of the girls were first, second or third in their high school classes. All of the boys and girls have studied science and/or mathematics for four years or more in high school. All have participated in a wide variety of extra-curricular activities and hobbies. Among the 260 who won Honorable Mention, 199 belong to science clubs most of which are affiliated with Science Clubs of America. The proportion of boys and girls in this list is determined by the ratio of boys and girls entering the contest. Listed are 52 girls and 208 boys.

## THE BEST WAY TO KEEP INFORMED

The best way to keep informed about the Science Talent Search is to belong to Science Clubs of America. The 15,000 sponsors of affiliated clubs receive regular communications concerning this annual event open to high school seniors. They also are informed of the other annual event conducted by SCA - The National Science Fair - open to sophomores, juniors and seniors in secondary schools. Adults who are not receiving this free service should write for information to:

Science Clubs of America  
1719 N St. N.W.  
Washington 6, D.C.

## STATE SCIENCE TALENT SEARCHES

Since 1948 State Science Talent Searches have been held concurrently with the national competition by special arrangement with Science Clubs of America. The organizations sponsoring State Science Talent Searches in 1954 follow with the director of each indicated.

Alabama: Alabama Academy of Science

Dr. James L. Kassner, Prof. of Chemistry, University of Alabama, University

Arkansas: Arkansas Academy of Science

Dr. Herndon G. Dowling, Dept. of Zoology, University of Arkansas, Fayetteville

Connecticut:

Director to be named. Send requests for information to Science Clubs of America

District of Columbia: Washington Academy of Sciences

Dr. A.T. McPherson, Associate Director, National Bureau of Standards, Washington 25

Georgia: Georgia Academy of Science

Mr. Eugene Sanders, Science Teacher, Henry Grady High School, Atlanta

Illinois: Illinois State Academy of Science

Dr. Frank H. Reed, State Geological Survey, Natural Resources Building, Urbana

Indiana: Indiana Academy of Science

Mr. Ralph W. Ladler, Asst. Prof. of Physics and Education, Purdue University, Lafayette

Iowa: Iowa Academy of Science

Dr. F. E. Brown, Professor of Chemistry, Iowa State College, Ames

Kansas: Kansas Academy of Science

Dr. W.H. Horr, Dept. of Botany, University of Kansas, Lawrence

Louisiana: Louisiana Academy of Sciences

Mrs. A.S. Gates, Science Teacher, Baton Rouge High School, Baton Rouge

Maine: University of Maine

Dr. George Davis, Asst. Prof. of Education, University of Maine, Orono

Massachusetts: American Academy of Arts and Sciences

Dr. of Mass. STS, American Academy of Arts and Sciences, 28 Newbury St., Boston

Michigan: Michigan Academy of Sciences, Arts, and Letters

Dr. C. N. McCarty, Department of Chemistry, Michigan State College, East Lansing

Minnesota: Minnesota Academy of Science

Dr. Arthur F. Nelson, Prof. of Chemistry, State Teachers College, St. Cloud

Montana: Montana State College

Mr. Adrien L. Hess, Asst. Prof. of Mathematics, Montana State College, Bozeman

New Hampshire:

Dr. Robert Blickle, Dept. of Entomology, University of New Hampshire, Durham

Pennsylvania: Pennsylvania Academy of Science

Dr. Robert B. Gordon, State Teachers College, West Chester

Rhode Island: Brown University

Dr. Charles H. Smiley, Chm., Dept. of Astronomy, Brown University, Providence 12

South Carolina: South Carolina Academy of Science

Mr. W. H. Ward, Dir., Extension Division, University of South Carolina, Columbia 1

South Dakota: South Dakota Academy of Science

Dr. Elmer R. Johnson, Assoc. Prof. of Chemistry, South Dakota State College, Brookings

Tennessee: Tennessee Academy of Science

Mr. James L. Major, Chemistry and Physics Teacher, Clarksville H.S., Clarksville

Texas: Texas Academy of Science

Mr. Wayne Taylor, Science Teacher, Denton H.S., Denton

Vermont: University of Vermont

Dr. Charles Ernest Braum, Head, Dept. of Chem., University of Vermont, Burlington

Virginia: Virginia Academy of Science

Dr. Edward R. Dyer, Jr., Prof. of Astronomy, University of Virginia, Charlottesville

West Virginia: West Virginia Academy of Science

Miss Myrtle M. Miller, Science Teacher, Fairmont Senior High School, Fairmont

Wisconsin: Wisconsin Academy of Sciences, Arts, and Letters

Dr. S. F. Darling, Prof. of Chemistry, Lawrence College, Appleton

Those desiring information on or details of the results of State Science Talent Searches should send their inquiries to the Directors in the respective states. For a prompt reply, send a stamped, self-addressed envelope with your inquiry.

# Rules and Regulations

## THE THIRTEENTH ANNUAL SCIENCE TALENT SEARCH CONDUCTED BY SCIENCE CLUBS OF AMERICA, FOR THE WESTINGHOUSE SCIENCE SCHOLARSHIPS

### ELIGIBILITY

Any boy or girl who is in his last year in an accredited secondary school (public, private, parochial) in continental United States, who is expected by the certifying school official to complete college entrance qualifications before October 1, 1954, and who has not competed in any previous Science Talent Search is eligible to enter this competition.

*Age*—There are no age limits in this competition.

*Science Clubs of America*—It is not necessary to be a member of Science Clubs of America to enter this competition, although creative activity in a science club will aid a contestant's record.

### REQUIREMENTS

Each completed entry in the Science Talent Search must consist of these three:

1. A completed science aptitude examination, certified by student and teacher.
2. A personal data blank and secondary school record, filled out by the teachers and principal.
3. A report of about 1,000 words on "My Scientific Project," by the student. It should tell what the contestant is doing or plans to do in science in the way of experimentation or other research activity. It should be original, creative and interpretative in character.

Science Talent Search science aptitude examinations and personal data—secondary school record blanks are furnished free of charge to any school official who requests them and who pledges to administer them in accordance with instructions.

Each contestant must take the Science Talent Search examination administered in his school on or after Monday, December 7, 1953.

All entries must reach the offices of Science Clubs of America, 1719 N Street, N. W., Washington 6, D. C., not later than midnight, Sunday, December 27, 1953.

### AWARDS

Forty contestants with highest talent as judged by a judging committee on the basis of Science Talent Search examination, scholastic and personal records, reports and any other information assembled by the judges, will be awarded invitations to the Science Talent Institute and all-expense trips (transportation, hotel and other arranged expenses paid) to the place the Institute is to be held, and return. It is planned to hold the Science Talent Institute February 25-March 1, 1954, at Washington, D. C., unless in the judgment of Science Service it should be held elsewhere or at another time. All contestants invited to the Science Talent Institute will receive the Gold Emblem of Science Clubs of America.

One contestant coming to the Science Talent Institute will be selected by a board of judges to receive a four-year Westinghouse Grand Science Scholarship of \$2,800 (\$700 per year). An alternate will be named.

Another contestant coming to the Science Talent Institute will be selected by a board of judges to receive a four-year Westinghouse Grand Science Scholarship of \$2,000 (\$500 per year). An alternate will be named.

Eight additional contestants coming to the Science Talent Institute will be selected by a board of judges to receive four-year Westinghouse Scholarships of \$400 each (\$100 per year). Three alternates will be named.

Additional Westinghouse Scholarship awards totaling \$3,000 will be awarded at the discretion of the judges.

Honorable mentions will be awarded.

Committees of judges designated by Science Service will judge the contest, and the decision of these judges shall be final in all cases.

### Conditions of Scholarships

Each scholarship may be applied toward a course in science or engineering at a degree-granting institution of higher education selected by the winner and approved by a Scholarship Committee named by Science Service. Science and engineering courses that may be pursued are those encompassed in the fields of activity of the National Academy of Sciences and the National Research Council.

Should any winner be unable for any reason to enter upon the use of a scholarship, the highest ranking alternate named by the judges shall become entitled to receive it under the same conditions as applicable to the original winner and the original winner shall thereupon have no further rights in the scholarship.

The use of a scholarship shall begin within a year of the date of award.

One-half of each year's scholarship will be paid at the time of entering upon each year's college work and one-half at the middle of each collegiate year, but payments may be accelerated at the discretion of the Scholarship Committee.

In the event that the holder withdraws from collegiate work, or if continued use of the scholarship award is disapproved by the Scholarship Committee upon report from the college that progress is deemed unsatisfactory to the college, the right of the scholarship holder to receive any further payments shall be forthwith terminated.

The approval or disapproval and decision of the Scholarship Committee shall in all its respects be final.
