

**VOLUNTEER, JUDGE, INTERPRET AT THE**

## HOW YOU CAN HELP

### WHY VOLUNTEER AT REGENERON ISEF?

- Gain personal satisfaction and inspiration by supporting motivated future scientists and engineers
- Advance and support STEM education worldwide
- Earn community service or outreach credit from your business, school or institution

### APPLY TO BE A JUDGE TODAY!

Approximately 2,000 judges are needed for 21 scientific disciplines. Judging will take place from May 3–6. Once a judge has been approved, the Society will follow up to discuss the timing of judging appointments and a judge's availability. Judges should plan on donating a full or half day of their time. Judges must have a minimum of six years related professional experience beyond receiving a B.A., B.S., or Master's degree OR a Ph.D., M.D., or equivalent (D.O., Ed.D., D.D.S., D.V.M., etc.) OR is a current graduate student with more than four years of doctoral-level research experience or who is within one year of doctoral dissertation defense.

## ABOUT REGENERON ISEF

The Regeneron International Science and Engineering Fair (ISEF) is the world's largest international pre-college science competition. Regeneron ISEF provides an annual forum for more than 1,800 students in grades 9–12 from nearly every state in the U.S. and more than 80 countries, regions and territories to showcase their talent on an international stage. Each year, millions of students worldwide compete in science fairs, with winners going on to participate in more than 435 Society-affiliated fairs. The top winners at those fairs earn the opportunity to compete at Regeneron ISEF. In 2021, Regeneron ISEF will be held virtually to keep everyone safe during the COVID-19 pandemic. These top young scientific minds will come together to showcase their talent on an international stage, be judged by doctoral-level scientists and compete for nearly \$5 million in prizes and scholarships.

### VOLUNTEER TO INTERPRET

About 200 interpreters in over 25 languages will be needed to support judging appointments taking place May 3-6. The Society will follow up with interpreters to discuss the timing of judging appointments. Technical knowledge is not required, just an eagerness to support the next generation of scientific leaders. Many of the students are fluent in English but would like interpreters just in case.

The greatest need for languages includes Spanish, Arabic, Russian and Mandarin. Other languages needed include Bahasa Malaysia, Cantonese, Czech, Filipino, Finnish, French, German, Gujarati, Hindi, Hungarian, Indonesian, Italian, Japanese, Kazakh, Korean, Mandarin, Polish, Portuguese, Romanian, Sinhala, Slovak, Thai, Turkish, Urdu and Vietnamese.
