ABOUT REGENERON ISEF

The Regeneron International Science and Engineering Fair (ISEF) is the world's largest international pre-college science competition. Regeneron ISEF provides an annual forum for more than 1,800 students in grades 9–12 from nearly every state in the U.S. and more than 80 countries, regions and territories to showcase their talent on an international stage. Each year, millions of students worldwide compete in science fairs; winners go on to participate in more than 425 Society-affiliated fairs from which the best win the opportunity to attend the Regeneron ISEF, to be held at the Georgia World Congress Center, **May 8–13, 2022**. These top young scientific minds will come together to showcase their talent on an international stage, be judged by doctoral-level scientists and compete for nearly \$5 million in prizes and scholarships.
