

Science News Explores Planner

Visit the Science News Explores website to play games and do STEM activities.

Answer the questions on this experiences planner to describe your science takeaways.

Quickly scroll through the home page of Science News Explores and list at least five articles or videos you'd like to explore further:

1. _____
2. _____
3. _____
4. _____
5. _____

Choose 1–2 articles or videos from your list above, and then answer the following questions:

What is the weirdest thing you learned?	What is something that surprised you?	What is the most interesting thing you learned about or observed from an article or video?	What science topics or STEM organizations do you want to learn more about?
What questions do you have?	Did your exploration inspire any ideas for a new research project? If so, what are your project ideas?	Did anything you explored relate to what you are learning in your science class? Explain.	How could you use one or more of these resources in the future?
