& THE PUBLIC

Since 1942

MEET THE TOP 40 YOUNG SCIENTISTS AND ENGINEERS IN THE UNITED STATES

SUNDAY, MARCH 14, 2021 | 2:00 PM–4:00 PM ET

<https://ssp.6connex.com/event/virtual/vsts/login>

Join the Society for Science in celebrating the top 40 finalists in the Regeneron Science Talent Search 2021! Live chat with these future leaders in science finalists about their award-winning, and explore the robust 80-year history of the competition.

Regeneron STS is the nation's most prestigious pre-college science competition, providing an important forum for original research that is recognized and reviewed by a national jury of professional scientists. Alumni have made extraordinary contributions to science and have earned many of the world's most distinguished science and math honors, including Nobel Prizes, National Medals of Science and Fields Medals. Annually, nearly 2,000 high school seniors country accept the challenge of conducting independent science, math or engineering research and completing an entry for the Regeneron STS. The top 40 finalists, who each receive \$25,000, will participate in virtual competition from March 10–17. The top winners of Regeneron STS 2021, who receive additional awards, will be announced on Wednesday, March 17, 2021. Learn more at societyforscience.org/regeneron-sts.
