

# EDUCATOR RECOMMENDATION

## INSTRUCTIONAL DOCUMENT REGENERON SCIENCE TALENT SEARCH 2023

### INFORMATION FOR STUDENTS

#### **Who should complete the Educator Recommendation?**

- A high school teacher who has worked with you in a classroom setting during any year of high school. Preference should be given to science, engineering and/or math educators.

#### **When is the Educator Recommendation due?**

- The deadline for your Recommender to submit this form is Wednesday, November 9, 2022 at 8:00 pm Eastern Time. This deadline is now the same date and time as the student application deadline. We will be unable to accept materials, including recommendations, after this deadline.

#### **How do I request my Educator Recommendation?**

- Talk to or email your recommenders to ask them if they would be willing to complete a recommendation on your behalf. Let them know that they should anticipate an automated email from our online system – the sender name will be “Regeneron Science Talent Search.” Then request your Educator Recommendation through the online application system.
- We recommend that you request your recommendations the day you open your application to allow your recommenders plenty of time.
- It is your responsibility to remind your recommenders to submit their recommendations before the deadline. We cannot accept any portions of the application, including recommendations, after the application deadline.

#### **How many Educator Recommendations should I request?**

- Consider requesting multiple Educator Recommendations only if you believe each educator has something unique to say about your abilities. We encourage you to ask another supportive adult, like a coach or boss, to provide a recommendation as well.
- If you are a homeschool student and your parent is your only educator and completes an Educator Recommendation, we recommend that you request a second Educator Recommendation from a non-relative who knows you in an academic setting, even if not in the traditional classroom sense.

#### **Other things to know about the Educator Recommendation:**

- The Society does not accept PDF letters of recommendations. Recommenders are required to answer a few short responses within the online form.
- Recommendations are confidential; entrants waive their rights to see content shared by recommenders.
- Exact questions and word limits stated on the next page may vary slightly in the online application.

## EDUCATOR RECOMMENDATION FORM

1. Do you have a familial relationship with the student? Such a relationship is not disallowed under Regeneron STS rules, however it is important that it be disclosed. If so, please describe the relationship.
2. Have any of your former students entered and/or won awards in the Science Talent Search?
  - a. Yes, my students have entered STS
  - b. Yes, my students have won awards at the scholar or finalist level in STS
  - c. No, none of my students have ever entered STS
  - d. Unsure
3. Describe the culture of science research at your high school. Do you teach or lead a research class or club? Is the group selective? If this context impacts your ranking of this student in the questions below, please explain here. (150 words max)
4. How long have you known this student and in what capacity? How does this student compare to students you currently teach and also to those you have known during your teaching career? (150 words max)
5. Please describe your personal observation (if any) of the student's character and integrity, leadership among their peers or in your community, and any challenges they have overcome. Please use specific examples, if possible, and do not include activities you have not witnessed. Entrants are able to provide a full extracurricular list in their portion of the application. (200 words max)
6. What level of mentorship have you provided the student with the STS application process and/or research project? Please explain your level of knowledge (if any) regarding the submitted research project and/or any other research projects conducted by this student during their high school career. Can you attest that the application and research project submitted in this application properly reflect their own work? Please summarize your observations and experience with this student and the qualities they possess that you believe would contribute to their future promise as a scientist, mathematician or engineer. (250 words max)
7. How would you rate this student against other high school students you have worked with in the past?  
Top 1% Top 5% Top 10% Top 25% Top 50% Other
8. How would you rate this student against other STS entrants you have worked with in the past?  
Top 1% Top 5% Top 10% Top 25% Top 50% Other
9. Is there anything else you would like to share about how the COVID-19 pandemic has impacted your school and/or this particular student? (200 words max)

## ETHICS AGREEMENT

I certify that I have presented the full truth regarding the student researcher's experience in my classroom and have not presented false information. I understand that mentors of Regeneron STS entrants may not benefit financially based on the overall placement of entrants in the competition.

## TROUBLESHOOTING ISSUES

Should your Recommender experience any issues with our online process, please encourage them to review the Recommender FAQ on the application website and to email [sts@societyscience.org](mailto:sts@societyscience.org) with any other concerns. Once you request a recommendation from them through the online system, the Recommender should receive an email with instructions. Occasionally these messages are caught in junk mail or strict school email filters, or a recommender could receive requests from multiple students under different email addresses, causing confusion. We are happy to investigate any issues.
