RISK ASSESSMENT FORM FOR RESEARCH INVOLVING PHBAS AND HAZARDOUS MATERIALS

Student’s Name ____________________________________________________________

Title of Project __________________________________________________________

To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist: (All questions must be answered; additional page(s) may be attached.)

1. Identify and assess the risks and hazards involved in this project:

2. Subjects
   a. list all hazardous chemicals, activities, or devices that will be used
   b. identify microorganisms and identify the BSL level of each organism (see Potentially Hazardous Biological Agent rules)

3. Describe the safety precautions and procedures that will be used to reduce the risks.

4. Describe the disposal procedures that will be used (when applicable)

5. List the source(s) of safety information.

6. Location where research is to be conducted and BSL level.

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan and will provide direct supervision.

Designated Supervisor’s Printed Name ______________________ Signature __________ Date of Review (mm/dd/yy) ______________

Position & Institution __________________________________________ Phone or email contact information __________________________

Experience/Training as relates to the student’s area of research ______________________________________________________
