

SUBMIT YOUR RESEARCH TO THE 2027

REGENERON SCIENCE TALENT SEARCH

Your science, engineering or math research may be eligible for the Regeneron Science Talent Search (Regeneron STS), the nation's oldest and most prestigious STEM competition for high school seniors. Awards total \$3.1 million annually, including a top prize of \$250,000.

You are eligible if:

- You have completed individual, independent science, engineering or math research at any time in your life (team research is not eligible)
- You are attending school in the US (some US citizens living abroad are also eligible)
- You will be completing your last year of secondary school in November 2026 when the application is due
- Your research adheres to the official rules regarding eligibility, AI, and all scientific rules regarding humans, vertebrate animals, PHBAs, hazardous materials and more.

You will need to submit:

- Essay Questions
- Recommendations (submitted by adults in a special online system)
- Scientific Research Report (paper describing your research)
- Test Scores (optional)
- Transcripts

REGENERON
